#### **DETAILED ACTION**

### Specification

1. The disclosure is objected to because of the following informalities: the neckrest has not been provided a reference numeral in order to point it out in the drawings.

Appropriate correction is required.

## Claim Rejections - 35 USC § 112

2. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrase "polyurethane rubber or PUR material" renders the claim indefinite, because the resulting claim does not clear set forth the metes and bounds of the patent protection desired.

# Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by White (7,125).

White (7,125) shows a neckrest comprising a retaining rod (C) connected to a backrest shield (a) via a movable connection (c) and can be tilted approximately 30 degrees in a vertical plane with respect to a surface on the backrest, and a guide sleeve (H) mounted on the retaining rod (C) to be slidingly shiftable to approximately 200 mm on the retaining rod.

With claim 5, a joint (h) is configured to connect the guide sleeve to a headrest, wherein the joint has a rolling element and a fastening device.

#### Allowable Subject Matter

- 5. Claims 2 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 6. Claim 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's

disclosure. Whitehill, Peterson, Hayashi, White'286, Thompson, Browne, De Filippo, and Weber

are cited as showing similar types of neckrest.
